## YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If Cross, Feverish or Bilious, Give "California Syrup of Figs"

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste.

When cross, irritable, feverish, stomach sour, breath bad or has stomach ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and they dearly love its pleasant taste. Fall directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs"; then see that it is made by the "California Fig Syrup Company."—Adv.
